We Luv Hair

Our creative team of stylists have recently attended Schwarzkopf Essential Looks, and also presented an evening of Fashion, Hair and Makeup.

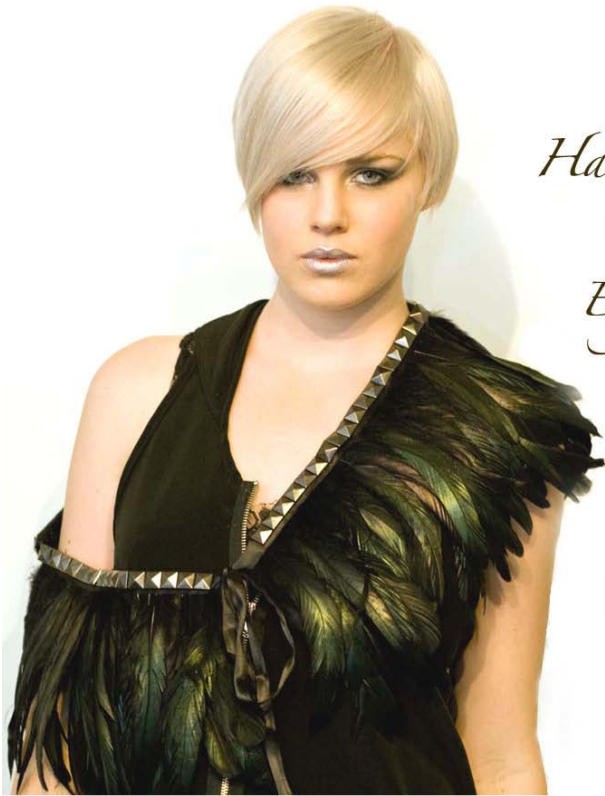

We would like to inspire you with the latest in Fashion directions and invite you to the salon to enhance your colour, cut and look.

Hair is richer, more rustic in colour and shiny using glosses and oils.

Eighties are back with big bold blocks of colour. Leopard animal prints, feathers and faux fur. Shoulder pads are creating width and bulk. Silky cocktail dresses where hair is being dressed for that exciting evening out.

We have returned to lots of movement with waves and curls.

Dark Amazons are filled with deep velvet textures, black leather and studs. Dark maroon and violet hair colour or to the opposite extreme seductive pearly pure blondes enhance strong makeup.

40's Romance Elegance, nostalgia, soft femininity with a post war influence. Gloves, fur coats, wool dresses and military suits are in vogue. Bold Red Lips are back and so are beautiful vibrant red hues of hair colour. Movement with waves and soft up styles.

Out of Shape which is oversized avant garde, arty ruffles with diagonal looks. Not for the faint hearted! Hair can be asymmetrical bold or soft edges.
